To my best & closest friend. I hope you are a  
great success (like me). It's been fantastic, great,  
unbelievable, going to school, playing in sports  
to raise hell. I will never forget our friendship  
& all the things we did. I'll never forget all  
the hell, parties, & things we did to people.  
I just wish I was going with you to Hawaii, &  
then L.A. were going have to raise hell on the  
Senior trip. Make damn sure you write me &  
I will do the same. It been great. I can't think

I can't put my ideas, & thoughts in words. It

WE PUT THE WORLD IN YOUR HAND

**O**nce upon a time many years ago forest lands were wild, untamed domains — almost jungles. Hidden behind an idyllic conception were the constant ravages of fire, insects, rot and other abuses of Nature. In this very competitive community, survival was a harsh experience. ■ Then forest management came along. And forest lands began an orderly existence. Mature trees were harvested, making room for sunshine and rain, thus creating opportunities for young trees to grow healthy and strong. ■ Today, the forest is a living result of long-range perception . . . and a working example of how intelligent use of natural resources can be of benefit to all

# CHOOSE ONE

☐ Neat!

☐ It's a gas!

☐ Out of sight!

☐ Groovy!

☐ It really turned me on!

☐ It really blew my mind!

Graduates in the know tell us that the foregoing words and phrases are "in" on a national basis to designate "great," "sweet" and "super."

So rather than choosing our own stuffy words to congratulate you on your graduation, select whatever turns you on.

Now for the traditional stuff: It's your world; It's your future, and planning for the future means success. Kennecott's personnel have done that, and they have made a success of one of the largest copper producers in the United States.

Perhaps Kennecott is in your future. We sincerely hope so.
